Solano Safe Routes to School Program

Lloyd Nadal, MA
Program Services Division Manager

Walking/Biking to School

1969

- 50% of children 5 to 14 years of age usually walked or bicycled to school
(National Center for Safe Routes to School, 2011).
- 41% of children in grades K–8 lived within one mile of school;
***90%** of these children usually walked or bicycled to school
(U.S. Dept of Transportation, 1972).

Walk/Bike to School - 40 years later

2009

- 13% of children 5 to 14 years of age usually walked or bicycled to school
(National Center, 2011).
- 31% of children in grades K–8 lived within one mile of school;
***35%** of these children usually walked or bicycled to school
(National Center, 2011).

Benefits of Safe Routes to School

Safe Routes to School improves sidewalks and street crossings and creates safe, convenient, and fun opportunities for children to bicycle and walk to and from school. The CDC has recognized Safe Routes to School as one of a handful of programs that are cost-effective and show significant population health impacts within five years. saferoutespartnership.org

COST SAVINGS

- Household savings from reduced gas & car use
- Education budget savings through reduced student busing costs

TRAFFIC SAFETY

- Reduced traffic injuries & dangers for students and community members at arrival & dismissal through street improvements near schools
- More chances to learn & practice road safety for students

CLIMATE BENEFITS AND CLEANER AIR

- Fewer student asthma attacks due to less driving & reduced air pollution levels
- Cleaner air & reduced greenhouse gas emissions

SAFETY FROM CRIME

- Increased safety from crime & violence due to more people on the streets, good lighting & better street design
- Less harassment, bullying, or violence when students walk or bike together or with adults

COMMUNITY CONNECTEDNESS

- Stronger student friendships & relationships through walking & biking together
- Positive social connections for families & neighbors

HEALTHIER STUDENTS

- Better health & stronger bones, muscles & joints through more walking & biking
- Reduced risk of chronic disease, diabetes, & obesity

SCHOOL TRANSPORTATION FIXES

- Solutions to reduced or non-existent bus service through Safe Routes to School
- Reduced traffic congestion at pick-up/drop-off times

BETTER ACADEMIC PERFORMANCE

- Better focus, improved concentration & less distraction for students who are active before school
- Fewer absences and less tardiness when students walk or bike in groups

Solano SR2S Program Highlights

"The 6 E's"

Education & Encouragement (with Solano Public Health)

- ❖ In 2019-2020, 78 schools participated in 359 events such as Walking School Bus, Bike Rodeos and Safety Assemblies reaching over **21,000+ students!**
- ❖ International Walk to School Day on October 2nd had 52 schools participate countywide.

Engagement

- ❖ Developed a countywide SR2S Master Plan with each City & School District through local SR2S Community Task Forces.
- ❖ High School Youth Engagement Pilot Program launched in 2017 with 7 high schools across Solano County

Engineering

29 SR2S School Infrastructure Projects completed; 7 schools to be completed in Benicia/Vallejo in 2020.

Evaluation

- ❖ Hand Tally Surveys – **19% Walk to School in Solano County** (Nat'l Avg is 13% /CA Avg is 24%).

Enforcement

- ❖ Public Safety Grants (Round 5) with Benicia and Suisun City Police Departments completed.
