PSE basics

WHAT IS PSE?

SNAP-Ed Guidance definition

<u>P</u>olicy Change

- Creating or changing a written statement of an organizational position, decision, or course of action. Made in public, non-profit, and business sectors.
- System Unwritten, ongoing, organizational decisions or change that result in new activities reaching large proportions of people. Alter how the organization conducts business.

<u>Environmental</u> Change Changes to the built/physical, economic, social, normative, or message environments that are visual/observable.

Let's say you want to remove sugary drinks from the office

How could you get rid of those pesky drinks? Talk to your coworkers! Ask them not to bring sugary drinks to the office anymore.

How could you get rid of those pesky drinks using PSE?

Environmental change: escorting the sugary drinks to the recycling bin

System change: asking the distributor to only stock healthy beverages

Policy change: re-writing your vending machine contract to require only healthy beverages

WHAT IS A "POLICY"?

SNAP-Ed Guidance definition

A written statement of an organizational position, decision, or course of action.

Ideally policies describe actions, resources, implementation, evaluation, and enforcement. Policies are made in the public, non-profit, and business sectors. Policies will help to guide behavioral changes for audiences served through SNAP-Ed programming.

Policy is more than just legislation

Policy offers accountability & enforcement

Policy reaches more people

Policy institutionalizes good ideas

Activity: Is this policy, systems, or environmental change?

Connecting the local convenience store with a fresh produce distributor so it can stock fruits and vegetables.

Implementing a local healthy food retailer license that requires food retailers to sell a minimum amount of healthy food.

Providing store owners with educational materials about stocking healthier items.

Working with store owners to post marketing materials to highlight their healthier products.

Routinely asking patients about food insecurity during clinic visits.

Working with the hospital to change the electronic medical record so evaluating food insecurity is a standard screening question.

Opening school grounds on weekends so community members can use the athletic fields.

Advocacy and lobbying basics

WHAT IS ADVOCACY?

Dictionary:

- 1. the act of pleading for, supporting, or recommending;
- 2. the act or process of advocating or supporting a cause or proposal;
- 3. the act of assisting, defending, pleading, or prosecuting for another.

WHAT IS LOBBYING?

Every law defines it a little differently, including:

- Federal tax law (nonprofits)
- Federal appropriations riders
- Federal Anti-lobbying Act
- Byrd Amendment
- OMB circulars (A-87, A-122)
- Federal Agency Rules (USDA SNAP-Ed Guidance)
- Federal lobbying registration and disclosure laws
- State and local lobbying registration and disclosure laws

WHAT IS LOBBYING?

SNAP-Ed Guidance definition

Lobbying is any activity or material to influence federal, state, or local officials to pass or sign legislation or to influence the outcomes of an election, referendum, or initiative.

In general, there are two basic types:

- 1. Direct lobbying
- 2. Grassroots lobbying

Direct lobbying

a communication directly with a government official that is designed to influence specific or proposed legislation

Communication

- Email
- Phone call
- Letter
- In-person meeting
- Tweets
- And more ...

Government official

Anyone working for:

- A legislative body
- A legislator, or
- Other government agency/ department that takes part in forming legislation

Influencing legislation

Reflecting a particular view about the legislation or making a direct appeal Grassroots Lobbying

a communication encouraging the public to take action to influence specific legislation

SIGN THE PETITION

To all Members of US Congress:

As concerned citizens, we call on you to stand for a free and open Internet and vote against both the Protect IP Act and the Stop Online Piracy Act. The Internet is a crucial tool for people in the US and around the world to exchange ideas and work collectively to build the world we all want. We urge you to show true global leadership and do all you can to protect this basic pillar of our democracy.

Activity Is this lobbying?

- A Champion Provider fellow sends a letter to the local Congresswoman in support of HR 123 to restore PICH funding.
- The health department sends an email to the members of a Healthy Equity Coalition urging them to write a letter to Congress in support HR 123.
 - The health officer tells the Congresswoman about the great work being done with PICH funding.

What can you do?

- **Engage**: Get people excited about their vision for change
- Assess: What's the problem? What solutions are there?
- **Propose**: Draft a strong policy that expresses the vision
- Advocate: Identify and meet with decision makers
- Implement: Stay focused even after a policy gets adopted

NATIONAL POLICY & LEGAL AN TO PREVENT CHILDHOOD OBEY Complete streets allow people to get around safely on foot, hicycle, or public transportation. By providing safe and convenient travel for everyone—including children, families, older adult, and people with disabilities complete streets not only help people stay active and healthy but also reduce traffic and pallution.

What Are Complete Streets? A Fact Sheet for Advocates and Community Members

Streets are key public spaces that often make up much of the land in a town or city. But across America, streets are frequently built for cars, with few features like sidewalks to make them safe and pleasant places to walk or bike. Conventional street design promotes traffic congestion, pollution, and collision injuries,^{1,2,3} and discourages physical activity.

Regular physical activity is critical to preventing obesity and its related illnesses, such as diabetes and heart disease. But American youth fail to get the recommended levels of daily exercise.^{4,5} Many schools have eliminated or reduced physical education, and in the last 30 years, the number of children walking or biking to school has dropped from 42 percent to a mere 16 percent. Young people living in low-income communities and youth of color get even less physical activity and have higher rates of obesity.⁶
